

**Model 736TC(I)
Integrated Refrigerator/Freezer**

Integrated refrigeration can be used anywhere in the home. It merges seamlessly into the décor, with no visible hinges or grilles. Model 736TC(I) has an upper cabinet refrigerator with freezer storage drawers. Two distinct temperature zones ensure the freshest food and energy efficiency. Model 736TCI features an automatic ice maker.

Features

- Integrated design blends invisibly into custom cabinetry
- Dual refrigeration system
- Microprocessor offers precise temperature control
- Electronic digital controls
- Flat-to-the-ceiling bright interior lighting
- Adjustable, spill-proof glass shelves and adjustable door shelves
- Refrigerator deli drawer for storage of smaller items
- Door alarm
- Automatic ice maker (Model 736TCI)
- Exclusive dual-action hinge with built-in 90° door stop
- Meets strict Department of Energy requirements

With the installation of a harness kit, this appliance is certified by Star-K to meet strict religious regulations in conjunction with specific instructions found on www.star-k.org.

*Depth is 24" from the front of the unit to its back. Your design may necessitate moving the unit back, or cabinets forward to achieve a flush fit. This will require a minimum opening depth of 25".

**Based on 9.06 cents per kilowatt hour.

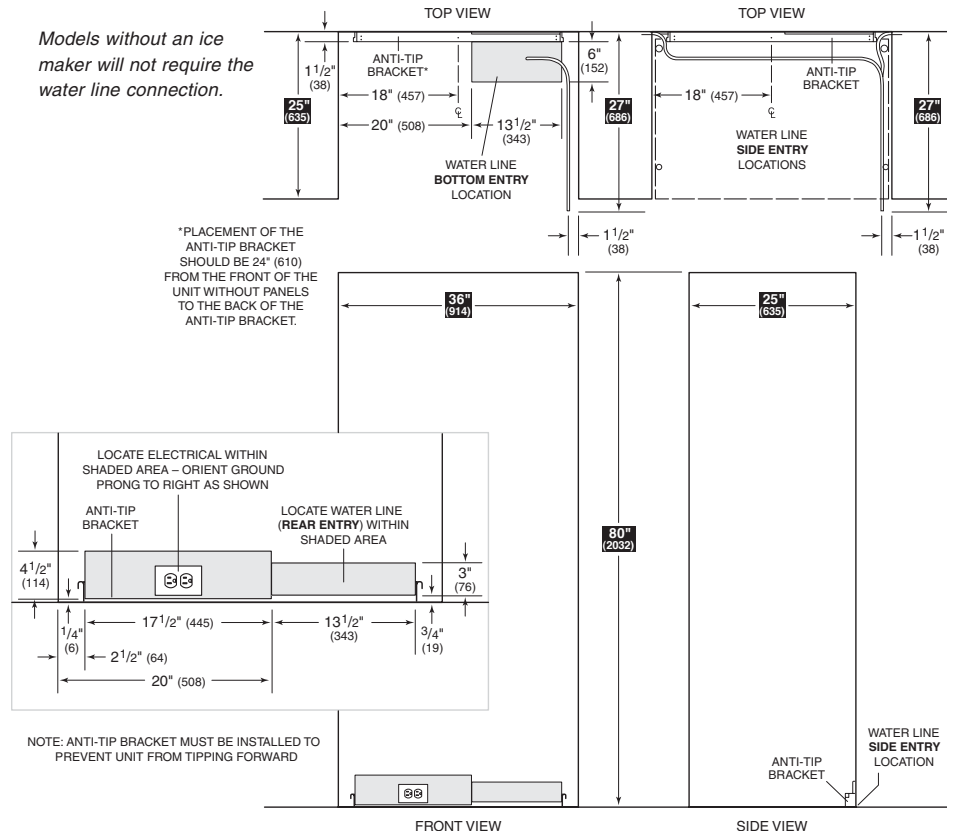

Installation Notes

Stainless steel panels with handles are available as accessories. Panels for an 80" finished height are offered in classic, platinum and carbon finishes. Panels for an 84" finished height come in the classic finish only. These panels are not installed at the factory.

Complete installation specifications, including panel sizes, can be found on our website, subzero.com.

Installation Specifications

Models without an ice maker will not require the water line connection.

Dimensions in parentheses are in millimeters unless otherwise specified.
